BERNICE E. SHIELDS,  
Overseer of the Poor

Plymouth, N. H.  
January 10, 1957

Office of Selectmen  
Holderness, N. H.

Dear Sirs:

The following is a report of activities carried on in the town of Holderness by the N. H. Department of Health, Bureau Public Health Nursing, for the year 1956.

The major part of the program has been the Salk Vaccine Clinics for the protection against poliomyelitis for the children ages 6 months to 20 years. Clinics have been held as follows:

|   |     |
|---|-----|
| January 30, 1956—Holderness Central School  |     |
| Attendance                                  | 204 |
| March 14, 1956—Holderness Central School    |     |
| Attendance                                  | 187 |
| December 14, 1956—Holderness Central School |     |
| Attendance                                  | 179 |
| November 27, 1956—Plymouth Grade School     |     |
| From Holderness                             | 60  |
| Total attendance at clinics                 | 630 |

Holderness had the clinics early in the year so the third shots or boosters were given at the November clinic. A total of about 180 children have completed three shots at the clinics, making about 75% of the eligible children in the community now protected against poliomyelitis.

I wish to take this opportunity to thank the following who contributed toward this successful program:

Mrs. Franklin Wolfe and members of the P.-T. A. for their excellent help at each clinic.

Dr. L. Middleton, Dr. W. Thomson and Dr. Conrad for their professional services and the nurses who so willingly and efficiently assisted the doctors.

Mrs. Amy Brown, R.N., School Nurse, for her wonderful cooperation and help.

The members of the Holderness School personnel for their excellent cooperation and for the use of the school for a clinic center.

Any other individuals or organizations who contributed in any way to these successful clinics.

Home visits have also been made in the town on mothers, infants and preschool children. Appointments have been made for children to attend clinics and follow-up visits have been made, giving mothers assistance as needed.

Respectfully submitted,

LOIS BARTON, R.N.,  
Public Health Nurse,  
N. H. Department of Health

To the Selectmen:

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. The following is offered with the respectful request for publication in your town report.

## YOUR TOWN DUMP

### Use It Freely

### Care For It

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised — regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden—the law requires it.  
The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning.  
Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty

### Use Your Dump Freely

### Help Keep It Safe

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the School Board and  
Citizens of Holderness:

I herein present my second annual report as superintendent of supervisory union No. 2 which includes the Holderness Elementary School.

In thinking over what our schools should accomplish, I hope we can keep in mind that today the whole child goes to school and that the teacher is not concerned with the mind of the child alone. Children do better school work when they are happy in their home life, are in good health, know how to get along with others and have a confident outlook on this world. It has been agreed generally that the aims of the schools cannot be separated from the aims of society, any more than the concept of a good education can be differentiated from the concept of a good life, and, in our planning, we should strive to achieve the goals that have been listed in the report of the New Hampshire Conference on Education, "What the Schools Should Accomplish." The schools should produce men and women who:

1. have mastered the basic skills and tools of knowledge without which additional learning is impossible the three R's.

2. know the history and geography of their country, understand the structure and philosophy of its government, have a feeling for its tradition of tolerance and fair play, i. e., good citizenship.

3. enjoy physical and mental health and understand the laws of hygiene;

4. have an appreciation of their own art and literature and that of other countries as well;

5. are able to provide for their needs by employment in the professions, industry, the arts and the sciences;

6. can fruitfully use, and not merely dissipate, the leisure time made available to them by the high standard of living in America;

7. have a true perception of right and wrong, and understand that no gain is worth the loss of a man's soul.

It was apparent at the preliminary conference, in preparation for the White House Conference on Education, that the representatives of the New Hampshire schools felt that the schools should provide the best education possible for each child, whatever his ability. This means that the schools should have facilities to handle the bright and the dull, the lazy and the industrious, the shy and the bold, the artistic and the practical.

## **PARENT TEACHER ASSOCIATION**

The P. T. A. is to be complimented for the fine educational programs that have been directed toward the individual child.

## **WORK SHOP**

The work shop this year — AUDIO VISUAL MATERIALS — was held at Ashland High School the latter part of September. The teachers were instructed about various ways of enriching their programs through the use of Visual Aids. Each one of the districts has included an item in the budget's appropriation to enlarge this part of the curriculum.

## **MUSIC**

Mr. Arthur Welwood, Jr., a graduate of Boston University with a major in music education, is supervisor of the music in the towns of Ashland, Holderness and Sandwich. Mr. Welwood has set up a well-rounded program of music education and is in the process of developing an instrumental program for boys and girls interested in band instruments.

## TEACHERS

We were very fortunate in replacing the members of the staff that left in June with two well qualified teachers. Mrs. Cynthia Salmon, a graduate of Oneonta State Teachers College and with a major in primary education, is teaching grade 1.

Mr. Kelvin Dalton, a graduate of Plymouth Teachers College, is teaching the mathematics and science classes in grades 5 through 8. Mr. Dalton has spent a great deal of time with the boys in teaching them the fundamentals of football and ice hockey.

## BUILDING PROGRAM

The School Board and Building Committee have given a great deal of thought to the proposed expansion program of the Holderness Central School and plans are under way to present a proposal that will meet the present and future needs of the children in Holderness.

## CONCLUSION

The members of the teaching staff and school personnel have been very cooperative, and where cooperation exists, counseling and discussion can be carried on to advantage.

To you, the members of the School Board, I am very grateful for the cooperation given me in carrying out the supervisory duties entrusted in me by you and the State Department of Education.

You, as Board members, deserve a great deal of thanks and praise for the many hours spent in carrying out the duties of a school board member and for serving your community in this very important position.

Respectfully submitted,

MARTIN E. HEFFERNAN  
Superintendent

## REPORT OF THE PRINCIPAL

---

Again during this current school year our conditions in the school are somewhat crowded. The Auditorium is being used as a classroom for the 7th and 8th grades, with the stage serving as a remedial reading room. A bulletin board has been added to the wall of the Auditorium for use by Grade 7 and 8. We have not experienced a maximum result from the Audio-visual program as the space to show the films properly has not been available. The hall of the school was used and whenever possible the classes changed rooms so that the auditorium could be used for this purpose.

Mrs. Salmon has been teaching the first grade and Mr. Dalton has been the 7th and 8th grade home room teacher while teaching Math and Science.

The music program has been under the direction of our music instructor, Mr. Arthur Welwood. He spends one day a week at the school, giving music instruction to individual classes and also private lessons to students requesting them. Last spring an operetta under the direction of Mrs. Uhlman, assisted by Mrs. Corbett and Mrs. Garland was presented for the parents. It is hoped that another operetta can be presented this year.

The remedial reading program, with Mrs. Corbett in charge, has again raised the reading level of many of the students. The Principal is thankful to Mrs. Corbett for the help and time she has given assisting with the administrative work that is a very necessary part of operating a school.

School projects have been in operation to raise money for the school activities program. Mrs. Garland is the treasurer of this program and under her guidance, money has been made available for necessary items for school activities.

In the Athletic Department a girls softball team and a boys baseball team were organized and both teams played several games with neighboring towns. During the Fall a Touch Football team, under the direction of Mr. Dalton, was added to the Physical Education Program. This proved very successful and was heartily accepted by the boys. In the winter months a skating rink was built and with the help of some of the faculty from Holderness Boys School, Hockey was introduced to the boys. It is hoped that in another year some of the other schools will be able to organize teams and a small league will be the result.

The P. T. A. has been very helpful in the outdoor program of the school. Seesaws and an outdoor basketball court have been added to the playground. The wooded area at the far side of the playground has been cleared and a picnic area has been developed. The town grader was also brought into use to level some of the playground proper.

The school lunch program under Mrs. Holland's supervision has had another very favorable year. A dishwasher has been added to the equipment in the kitchen. Mrs. Joseph Hayes has been assisting Mrs. Holland in the operation of the kitchen.

The Rhinehart Handwriting System was adopted this year and with the help of Mr. Brown and Mr. Matava much progress has been noted from this endeavor.

With the enrollment at its present high figure and the school as crowded as it is, we feel that the year just past has been a successful one. The possibility of the expansion of the present school plant and the fine cooperation of the community with the school makes us feel that the future of our school program looks very promising.

Respectfully submitted,

ROBERT E. McGLONE,  
Principal

## REPORT OF SCHOOL NURSE HOLDERNESS

Vitamin A and D pills were made possible for the first four grades again in 1956 by the P. T. A. The Dental Clinic is also sponsored by this organization. 73 children were examined and 58 received treatment by Dr. Crowell at the Clinics in February, March, April and May. I wish to thank the P. T. A. for their help in improving the health of the Holderness children.

Vision tests, hearing tests, head inspections, first aid, heights and weights were recorded as usual.

Every child has been offered several opportunities to have the Salk Polio Vaccine. As of December 31, 1956 my records show:

16 school children have completed 2 shots.

120 school children have completed 3 shots.

Eleven children were present for visiting day, May 16, in preparation for their entrance to the first grade in September. Histories of each child, vision tests and heights and weights were recorded.

83 children had physical examinations by Dr. Conrad, the school physician. Fifty home visits were made.

Respectfully submitted,

AMY L. BROWN, R.N.

School Nurse-Teacher
